Customer Reviews

Absolutely beautiful! This is a wonderful addition to my kids collection of books. The graphics are stunning and the quality is excellent. My kid loves to trace the cut out letters with his hands while I read out the letters to him. Highly recommend!

This is a truly unique ABC book! It's impressive size quickly captures your attention, and when you turn the first page and discover the raised letters and offsetting die cut designs, it's impossible to put this book down until you've thoroughly explored each page. From Alligators and Birds to a final herd of zebras, the graphics are arresting and innovative. An effective use of empty space makes the pictures really pop, and the cut outs and raised letters draw both the finger and the eye, eager to explore each letter and its accompanying illustration. Kids will be fascinated by the letters and how

they fit into their reverse designs. Bold colors, texture elements, and unique design make this offering stand out among the ABC genre. This book is well constructed and sturdy, sure to stand up to plenty of repeat reads. I can't think of a more interesting introduction to the alphabet.*This book received from the publisher for review purposes
