# Limited Liability Company: Beginner's Guide To Forming An LLC, Collecting Taxes, And Keeping Organized Records For Entrepreneurs And Small Business Owners (LLC Taxes, Start Up Business)

## Synopsis

This book contains easy to understand steps and strategies on how to form an LLC. This eBook will provide you with all of the information on what an LLC is and how to determine if transitioning your business into an LLC is right for your company. The eBook will discuss the steps to forming an LLC and to troubleshooting any issues that may arise during the process. In this ten-chapter book, we'll discuss:

- What is an LLC?
- Is an LLC Right for Me?
- How to Form an LLC
- Taxes
- Common Mistakes to Avoid when Forming an LLC
- How to Complete the Paperwork
- Managing the Articles of Incorporation
- Keeping Accurate Records for your Company
- Converting to an LLC from another Business Structure
- Troubleshooting Tricky Areas of an LLC

An LLC is great for small businesses that want to experience some level of liability protection. LLC owners also want to be tasked with a certain level of minimal formality and paperwork. An alternative to an LLC is an S Corporation. An S Corporation is described as a pass-through entity for federal taxes, just like the tax structure of an LLC, and it is a great option for a small business, as long as they can qualify. This book was not written to replace the need for a CPA. When you finish this book, you should have a basic understanding of the structure and processes involved with forming an limited liability company and what steps you should take next.

## Customer Reviews

This book was an incredibly fast read that gave me a lot of insight into my taxes, which previously I was just leaving in the hands of my accountant. Now with his help I am paying closer attention to and documenting every deduction I can find. I'm also inquiring about other tax issues which can potentially save me thousands. Get this book, take notes, and go over it with your accountant.

Being a small business owner is nerve wrecking for me, I started to look for answers and my friend send me this book over! Seriously a life saver, just to know what is going on in all the areas of my business, not that I do not trust my personal but because I had the need to know how to operate my business and know how it works I can have a better understanding, and do taxes and all the other things that comes with it to properly run a business if some of my staff is absent.

This is my second book from Elon. All I can say is this book has a straight forward understanding of what I need to do as a Sole Proprietor. It helped understand the ins and outs of basic tax deductions and what I can expect to pay through out the year and tips from getting started with LLC.

Fairly light, but useful, material. I would have liked to include more practical tips, such as how to file, when to change (if) to S-Corp. or when to dissolve an LLC.
