# Turn Your Computer Into A Money Machine In 2016: How To Make Money From Home And Grow Your Income Fast, With No Prior Experience! Set Up Within A Week!

## Synopsis

Learn my tactics to earn as much as \$60 per hour of my time - how to work from home and make money in your spare time - with nothing more than a computer and an internet connection - no prior experience required! I work WHENEVER and WHEREEVER I want, plus take time off whenever I please. Want to join me? And don't worry - I'm not about to suggest that you start writing books, become a blogger, build an online income from websites, start a Multi-Level Marketing business, fill out a pile of mind-numbing surveys, sell stuff on eBay, or bug your friends by trying to sell things to them. My system for online income is much easier to get up and running - it can be set up within 1 week - and can put cash in your pocket a lot sooner than most of those other options, plus has little to no start-up costs. Imagine having the ability to make money in your spare time, to have more freedom and make money online. 2016 can be the year you pull it off! Wouldn't it be great if you could earn this income online on YOUR terms and: work when you want, and where you want finally have the extra cash you need to afford a few luxuries in your monthly budget be able to take time off whenever you want, without having to beg for permission from your boss and arrange for it weeks or months in advance be able to double, triple, or quadruple your hourly wage once you learn to be more efficient at your work, rather than having your boss reward you with more work and zero extra pay This book will teach you my method for building an online income that provides all that, and more. Forget getting another job - work for yourself on YOUR terms instead! I've used this system anywhere from North American suburbia to Bali - how many JOBS can offer you that kind of flexibility? The ability to design your dream life, wherever you want it to be? Read this book and find out how to do it! Learn how to work from home, or anywhere in the world! I've earned money everywhere from my couch in suburbia to a cozy coffee shop overlooking a gorgeous marina in the tropics. This book will show you how. If you're looking for real ways to earn money from home, a system that's flexible and works whether you're just doing it in your spare time as a side hustle, or turning it into a full-time gig, you should read this book. I know this system for building an online income works, because I use it even now. Use my system and you will work from home in 2016! Setting your own schedule, enjoying the flexibility that it offers, and of course, the extra cash in your pocket... Buy this book and find out how to do it.

## Customer Reviews

I read this author's first two books and loved them for their down-to-earth common sense and their gently encouraging tone. It's rare for an author to approach the uncomfortable subject of personal finance in such a way that excites readers instead of frightening and depressing them. So I was eager to read her latest, although I wasn't sure that I would want to review it. After all, I know a bit about personal finance (including credit scores) but I know nothing at all about on-line writing. But that's the beauty and value of Breyer's books. She assumes that you DON'T know anything and walks you through it step by step. In this case, she's teaching you the system that she's evolved for making money writing articles and web site content for companies that don't have time to do it themselves. In other words, free-lance non-fiction writing. I'm leery of get-rich-quick schemes, but I don't think this falls into that category. For one thing, this is not an opportunity that's open to everyone. In order to cash in, you must write good (i.e. grammatically correct) English and it must be standard American English. You must also be a reasonably proficient typist or it will take you so long to pound out an article that your hourly pay scale will be laughable. As this author points out, you can teach yourself good grammar and fast typing if you're motivated to do so. If I have an argument with the book it's that it glides over the research part of the system. Unless you're already an expert on the topic that the client wants you to write about, you'll have to research the subject. So your out-put will be contingent on how fast you type, but also on how fast you read and absorb

knowledge and how your brain processes knowledge.
