Customer Reviews

This book takes the guess work out of passive income. Carter has done her research and makes it easy to find the passive income stream(s) that are right for you. It's informative, easy to understand, and easy to put in to place. I enjoyed reading her insights into each option, which are great for newbies or even for those who have been doing this for awhile.

There are many methods for creating passive income streams. The author explains the various methods in a clear, easy to read manner. Also, what is required to start, and the potential earnings. The book contains an abundance of convenient Links to the various sites. Even after selecting a method and starting to work, this book will be a valuable reference source. For anyone considering passive income, this book is highly recommended!

The explanations are clear and concise. The tone is friendly and helpful not preachy. The ways to make money seem doable.

" Passive Income Streams " is really a very valuable book , I recommend this book to anyone who is interested of new sources to earn money. Very easy to understand and very informative book.

Thank you-Anne-

Quite a few options listed I have tried before and found the amount of work involved didn't have a large enough payoff for me. However it is a good resource for those just starting out and brand new to passive income. Pat Flynn, Jeremy (ShoeMoney), Yaron Starak, are all good resources to get started with as well. Overall the book had a pamphlet feel, and didn't go too in depth while giving just enough info with an idea of how to work it to inspire you to be creative with it. It was an OK book.

The author explains each idea thoroughly. She gives more than just a couple of paths for passive income and explains what's necessary to get started including no money to small contributions to large contributions. She's also honest about the time frame on making income-hint passive. Good book-food detail.

The beginning of this book gave me the first thing I needed. Confidence that I can do it!!! I've been wanting to create income streams for some time and have ideas of what I want to do, I just didn't have the confidence or knowledge to take the first step. Her tips were something I needed to read. For instance to work on one at a time and get it up and going before going to the next one. I should know that but wouldn't have thought of it and knowing myself I would start with one but jump to the next one before finishing the first one. Things don't hold my interest long and I need to focus on the steps so I posted this tip on my wall by my workspace. Another great idea, I won't list them all here but I think this is an easy to do tip that will be worth it. Set up a separate account for income and expenses for your business venture. That helps you take quick peeks at your success or to see if you have a problem. So many great websites that I've never heard of or even would think of to search for such as doctor of credit for seeing what types of bonuses you can get from banks for starting a new account. Watch videos to earn cash, start a YouTube channel, blogging, the list goes on. She also covers the marketing aspect for your business. This is a very comprehensive, well-researched book packed full of knowledge, facts and ideas to help you get started. You'll see things that you would never think of.
