Synopsis

Never Work Again: Work Less, Earn More and Live Your Freedom Welcome to a very different kind of business book. Never Work Again shows you how you can build a successful and profitable business without the long hours and high stress that most entrepreneurs suffer from. Trust me – I’ve been there and it’s not fun. In the months after I started my first business I didn’t know any better. My business was making me ill, but I was too wrapped up in what I was doing to spot the signs let alone to do anything about it. That is until the day I found myself on a London tube train begging a stranger to call me an ambulance and thinking I was going to die. That was my wake-up call. Luckily I got a second chance. That day I realised that life is short and precious and I made a decision that if I pulled through I was going to do things differently. I decided to restructure my business efforts so that I could live life to the full. What I decided to create for myself was: A business that I could be proud of The financial freedom to live the life of my dreams The time freedom to do the things I love and to be with the people who matter most to me And now I want to help you do the same. After all, deciding to start your own business is something you do because you have a vision of a better life for you and your family. It’s your chance to take control and live life on your terms. And done right it will give you the financial freedom and the time freedom to do the things you love, when you want to do them and with the people who matter most in your life. Never Work Again shows you how you can easily start your own no-money down virtual online business – a business that will allow you to make money online and quickly achieve both financial freedom and time freedom. All you need to do is choose from a number of simple blueprints and follow the one that’s right for you. You will learn how to create positive habits that will free up your time and allow your business to grow more quickly than you ever thought possible. You will be able to work from home or work virtually from anywhere on the planet – what’s your favourite city or beach?! And you will learn how to automate and outsource your business, leveraging other people’s time for your own benefit so that you can start living the life you really want. But more than this, Never Work Again explores what it means to live a truly happy and fulfilled life – to really live the life of your dreams. It encourages you to examine your own motivations and desires in order to determine your true purpose and path in life – so you can discover what freedom really means for you. Customer Reviews

When I was younger I had dreams of self-employment, having my own business and being a millionaire by the time I was 30. That didn't happen. Like most kids I was constantly told to work hard at school get some qualifications then I'd get a good job. That kind of happened. So, for the past 30 years I've been employed- in the same job for the last 20. It's been ok but now I'm bored, very bored in fact and can't bear the prospect of doing the same old thing for the next 20-and that's always assuming that the austerity measures don't snatch it away beforehand. Ergo for the past couple of years I've been looking at various business opportunities and ways of developing multiple streams of income. Although I've got a few projects on the go I'm always on the lookout for new information and fresh ideas. As a result I've ended up on various mailing lists which is how I ended up with a link to this product. Given that the book was free at the time and had excellent reviews I decided that

there was nothing to lose by downloading it. To be fair it started out ok. In the first chapter we get to discover why the author had to get out of the business he was in and start his own venture. Nothing wrong with that. He talks about how school does nothing to nurture and encourage entrepreneurial spirit. I agree wholeheartedly. He talks about death and dying and how life is too short to waste time doing unfulfilling things. Very true, and whilst many of us would benefit from a wake-up call, a prod in the right direction this information could easily have been condensed into a chapter or two but unfortunately it goes on and on and on and on and on and on.....In fact at 12% Erlend actually states, "You're not reading this book to hear about death.
