**Dogs Deliver!**

Have you ever seen a person walking along with a guide dog? It seems amazing that these dogs know what to do. But they really do know what they're doing. They do it so well that the people they are with trust them completely. These people trust the dogs with their lives!

Dogs do more for people than help them move safely from one place to another. There are also dogs that help people who are deaf or hard of hearing. These dogs are trained to respond to certain types of sounds, such as ringing telephones, doorbells, and their owner's name. When they hear these sounds, they go to their owners and lead them to the sound. When the dogs hear a fire alarm, however, they do something quite different. They get their owner's attention and then let the owner know it is time to get out quickly!

Dogs are also used to help children with spinal injuries or other disabilities. These children, who are usually in wheelchairs, use dogs for many things. The dogs are trained to open and close doors for them. They can pick up things that the children can't reach. They can pull the wheelchair, and they can help the children get in and out of the car.

It is well known that animals can have a great effect on people. Dogs are no exception. They make people feel calm and help them live better lives. Dogs are used in some hospital environments to help people who are sick. They are good friends. There is no doubt that the friendship developed between the working dog and its owner is the biggest benefit of all!

**Los perros ayudan!**

¿Has visto alguna vez a una persona caminando por la calle con un perro guía? Parece increíble que estos perros sepan lo que deben hacer. Pero por supuesto que ellos saben lo que están haciendo. Ellos lo hacen tan bien que las personas que están con ellos les tienen absoluta confianza. ¡Estas personas les confían sus vidas a estos perros!

Los perros hacen mucho más por las personas que sólo les ayudan a ir de un lugar a otro con seguridad. También hay perros que ayudan a las personas que están sordas o que no oyen bien. Estos perros están entrenados para responder a ciertos tipos de sonidos, como cuando suena el teléfono, el timbre de la puerta, y el nombre de su dueño. Cuando ellos escuchan estos sonidos, ellos van con sus dueños y los llevan a donde está el sonido. Sin embargo, cuando los perros escuchan una alarma de incendio, ellos hacen algo completamente diferente. Ellos llaman la atención de sus dueños y luego se acuchan inmediatamente. ¡Esto le indica al dueño que deben salir rápidamente!

Los perros también se usan para ayudar a los niños con lesiones en la columna vertebral y otros tipos de discapacidades. Estos niños, que generalmente están en sillas de ruedas, dependen de sus perros para muchas cosas. Los perros están entrenados para abrir y cerrar puertas para muchos de los niños— ¡hasta ruidos! Ellos pueden recoger las cosas que se les caen a los niños y conseguir ayuda.

Es bien sabido que los animales pueden tener una gran influencia positiva en sus dueños. Ellos hacen que la gente se sienta tranquila y les ayudan a vivir más saludablemente. En el medio ambiente de algunos hospitales usan a los perros para ayudar a que se mejore la gente. Los perros hacen que la gente se sienta bien. Ellos son buenos amigos. ¡No hay duda que la amistad que se desarrolla entre el perro de trabajo y su dueño es uno de los más grandes beneficios!

## Customer Reviews

I've used this with my own children and a child I tutor. It seems right on target with reading level and both English and Spanish translations work. Total, un buen recurso para los que queremos materiales bilingues.

The stories and worksheets are good, but a little short: Each story is only 1 page. Most of my 4th graders finish a story and the worksheet in 10 to 15mins.

I love this book for my 4th grader. It explains the translation and answering question after reading in spanish and english. Also tells answers in back.

Arrived promptly. Good for teaching English and Spanish.

This one saved me!
